MANAGEMENT DISCUSSION AND ANALYSIS -  
QUARTERLY HIGHLIGHTS  
THREE MONTHS ENDED MARCH 31, 2016**

---

## MANAGEMENT DISCUSSION AND ANALYSIS - QUARTERLY HIGHLIGHTS

The following Management's Discussion and Analysis ("MD&A") of Chilean Metals Inc. ( the "Company") for the three months ended March 31, 2016 is dated as of May 30, 2016 and has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management discussion & analysis, being the Management Discussion & Analysis ("Annual MD&A") for the fiscal year ended December 31, 2015. This MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since the date of the Annual MD&A.

The MD&A has been prepared in compliance with section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the unaudited condensed consolidated interim financial statements of the Company for the three months ended March 31, 2016 in addition to the audited annual consolidated financial statements for the years ended December 31, 2015 and 2014, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's unaudited condensed consolidated interim financial statements and the financial information contained in this MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS. Information contained herein is presented as of May 30, 2016, unless otherwise indicated.

For the purposes of preparing this MD&A, Management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of the Company's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

The Company's shares are listed on the TSX Venture Exchange ("TSX-V"), OTCQB and Santiago Stock Exchange, Venture Market. Further information about the Company and its operations can be obtained from the offices of the Company or from [www.sedar.com](http://www.sedar.com) and the Company's website [www.chileanmetals.com](http://www.chileanmetals.com).

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This MD&A contains certain forward-looking information and forward-looking statements, as defined in applicable securities laws (collectively referred to herein as "forward-looking statements"). These statements relate to future events or the Company's future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "continues", "forecasts", "projects", "predicts", "intends", "anticipates" or "believes", or variations of, or the negatives of, such words and phrases, or statements that certain actions, events or results "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in such forward-looking statements. The forward-looking statements in this MD&A speak only as of the date of this MD&A or as of the date specified in such statement. The following table outlines certain significant forward-looking statements contained in this MD&A and provides the material assumptions used to develop such forward-looking statements and material risk factors that could cause actual results to differ materially from the forward looking statements.

Inherent in forward-looking statements are risks, uncertainties and other factors beyond the Company's ability to predict or control. Please, in addition, also make reference to those risk factors referenced in the "Risk Factors" section below. Readers are cautioned that the above chart does not contain an exhaustive list of the factors or assumptions that may affect the forward-looking statements, and that the assumptions underlying such statements may prove to be incorrect. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking statements. All forward-looking statements herein are qualified by this cautionary statement. Accordingly, readers should not place undue reliance on forward-looking statements. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements whether as a result of new information or future events or otherwise, except as may be required by law. If the Company does update one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements, unless required by law.

## **CORPORATE GOVERNANCE**

Management of the Company is responsible for the preparation and presentation of the quarterly financial statements and notes thereto. Additionally, it is Management's responsibility to ensure the Company complies with the laws and regulations applicable to its activities.

The Company's Management is held accountable to the Board of Directors ("Directors"), each member of which is elected annually by the shareholders of the Company. The Directors are responsible for reviewing and approving the financial statements and the MD&A. Responsibility for the review and approval of the Company's financial statements and MD&A is delegated by the Directors to the Audit Committee, which is composed of three directors. Additionally, the Audit Committee pre-approves audit and non-audit services provided by the Company's auditors.

The auditors are appointed annually by the shareholders to conduct an audit of the financial statements in accordance with generally accepted auditing standards. The external auditors have complete access to the Audit Committee to discuss audit, financial reporting and related matters resulting from the annual audit as well as assist the members of the Audit Committee in discharging their corporate governance responsibilities.

## **DESCRIPTION OF BUSINESS**

Chilean Metals Inc. is a resource exploration company involved in exploring for gold, silver, copper and iron on its various properties located in Chile and Nova Scotia (see "Proposed Transactions" below) . Exploring in Chile is done through its wholly owned subsidiaries in Chile, being Minera IPBX Limitada ("IPBX"), Minera Tierra de Oro Limitada, Minera Palo Negro Limitada and Minera Sierra Pintada Limitada ("Chilean Subsidiaries").

## **OVERALL PERFORMANCE**

As at March 31, 2016, the Company had assets of \$5,047,596 and a net equity position of \$3,758,242. This compares with assets of \$4,922,310 and a net equity position of \$3,720,113 at December 31, 2015. At March 31, 2016, the Company had \$1,289,354 of liabilities (December 31, 2015 – \$1,202,197 of liabilities).

At March 31, 2016, the Company had a working capital deficit of \$1,254,398, compared to a working capital deficit of \$1,190,001 at December 31, 2015, an increase in deficit of \$64,397, or approximately 5%. The Company had cash of \$7,372 at March 31, 2016 compared to \$456 at December 31, 2015, an increase of \$6,916. The Company needs to secure additional financing to carry on business activities for the twelve months ending March 31, 2017 (see below).

During the three months ended March 31, 2016, Patrick J Cruickshank was appointed CEO of the Company.

During the three months ended March 31, 2016, \$107,500 of debenture principal was converted to exercise the 2,150,000 warrants. Subsequent to March 31, 2016, 600,000 warrants were exercised through the conversion of the corresponding debentures with a principal balance of \$30,000 and the remaining \$30,000 principal was repaid.

Subsequent to March 31, 2016, the Company completed the placement of a \$150,000 debenture due Oct 31 2018. The terms are as follows: 14% interest annually in arrears at loan repayment, secured on a pari passu basis with the previously granted debentures (\$147,500 Face Value of debentures currently outstanding) by the shares of our Chilean subsidiary that contains a 3% royalty CMX retained through sale of its Copaquire asset to a subsidiary of Teck Resources Inc. 1,500,000 warrants, exercisable at \$.12 per share by Oct 31, 2018, will be granted to debenture holder.

Subsequent to March 31, 2016, the Company issued a total of 10,000,000 common shares at a price of \$0.07 per share for gross proceeds of \$700,000. Finder's fees of approximately \$18,645 were paid and 216,350 warrants were issued entitling the holder to acquire 216,350 common shares at a price of \$0.07 per share until June 1, 2017. Coincident with the closing of the investment Patrick Cruickshank, CEO, and Gary Lohman, VP Exploration, have been appointed to the Chilean Metals Board of Directors. To enable the appointments to take place Dan Gosselin has resigned from the Board of Directors. As part of the placement, an officer purchased 1,096,000 common shares.

Subsequent to March 31, 2016, the Company issued a bonus of \$144,000 to the President of the Company. As a condition of the bonus, the President has relinquished any right to future severance in the event of termination or a change of control of the Company.

The Company has entered into separate agreements to acquire four copper gold projects from Cogonov Inc. ("Cogonov"). The Projects are referred to as Fox River, Lynn, Parrisboro and Bass River. See "Proposed Transactions" below.

## **FUTURE DEVELOPMENT AND DISCUSSION**

With the Copaquire sale closed the Company is now focused on obtaining and creating value from its current mineral portfolio as well as its proposed transactions with Cogonov Inc. (see "Proposed Transactions" below).

The Company identified its then existing Zulema claims as an area of specific interest in late 2012. It has taken two years since then to assemble additional concessions over an area of 4,300 hectares (10,600 acres) to extend and protect the main exploration target area. The Company is optimistic the project will see an initial drill program by the third quarter of 2016.

## **EXPLORATION**

The Qualified Person for Chilean Metals Inc., as defined by National Instrument 43-101, is Mr. Gary H. Lohman, B.Sc., P.Geo. Mr. Lohman has read and approved the technical and scientific information contained in this MD&A.

As of March 31, 2016, through its Chilean Subsidiaries, the Company holds title to 101 mineral claims totaling 19,722 hectares. These claims comprise five properties held at March 31, 2016 by the Company as follows: Tierra de Oro, Palo Negro, Hornitos, Tabaco and Zulema.

### **Tierra de Oro (TDO), Chile**

Tierra de Oro is an advanced stage exploration project located in Region III on the eastern flank of Chile's Coastal Iron Oxide Copper Gold belt. The property lies about 50 kilometres south of the large Candelaria copper-gold-silver-iron mine. It consists of 5,667 hectares covering the historic Chanchero gold camp and numerous areas of historic oxide copper workings.

The Company initially became involved in the property in 1996 as a joint venture with Princeton Mining to explore for acid-soluble copper deposits. During the course of this exploration the Chanchero gold camp was re-discovered and added to the property. In 1998 the Company bought out Princeton's interest. The property was dormant between 1999 and 2002 but reactivated in late 2003. To date the Company has conducted property-wide geological, geochemical, geophysical surveys and limited trenching and drilling. The surveys delineated five major gold bearing structure zones between 200 and 1000 metres in length. Within these zones a number of gold exploration targets were identified.

In November 2007, the Company commenced a 7,000 metre drill program to test the identified gold targets. Drill results failed to corroborate the positive gold values obtained by previous surface sampling. However, areas of significant silver-copper mineralization identified in shears and mantos within volcanic strata in the eastern sector of the property justified additional work. Highlights included drill hole RC56, which intersected 40 metres of 16 g/t silver including 13 metres of 40 g/t silver and RC58 which intersected 40 metres of 8.2 g/t silver.

On February 21, 2008, following completion of an induced polarization ("IP") survey, the Company announced the discovery of an IP anomaly in the Chanchero zone. The large near-surface anomaly is elongated northeast-southwest, the core of which measures 900 by 300 metres and is open to extension at depth. The intensity and homogeneity of this chargeability response, coincident with a strong magnetic low anomaly and coupled with the presence of an altered porphyry intrusion may indicate the presence of a large sulphide-rich system at moderate depth.

In February 2011 the Company completed an Airborne ZTEM survey over the Tierra de Oro property in areas where potential iron oxide copper gold ("IOCG") targets and mineralized zones had been previously identified by geological, geochemical and ground geophysical programs. Two magnetic anomalies of significant size were identified: one north of the Chanchero zone and another located in the area known as Las Lomitas zone and associated with copper-silver manto prospects.

In the spring and summer of 2013 a complete review and analysis of TDO was completed by Dr. Chris Hodgson, VP of Exploration for the Company. As a result, the Company has identified two potential bulk copper-gold targets that the Company believes warrant a targeted exploratory drill program.

During the three months ended March 31, 2016, the Company incurred costs of \$50,191 (2015 - \$48,690) on the Tierra de Oro project.

## Zulema

In 2013, the Company acquired 23 exploration concessions totaling approximately 2,105 hectares surrounding its five then existing Zulema mining concessions in Chile's Third Region. In 2014, the Company acquired nine additional mining concessions totaling 724 hectares from a third party. Subsequent to December 31, 2014, the Company completed the acquisition from another third party of three additional mining concessions totaling 600 hectares. The Zulema property now consists of 4,300 hectares (10,626 acres). All concessions are held 100% by IPBX, with no underlying third party royalty or net profits interest. The project is located 30 kilometres from the giant Cu Au Candelaria mine of Lundin Mining Corporation and in a very similar geological environment.

The Company is optimistic the project will see an initial drill program by the third quarter of 2016.

During the three months ended March 31, 2016, the Company incurred costs of \$53,254 (2015 - \$155,532) on the project.

## RESULTS OF OPERATIONS

Three months ended March 31, 2016, compared with three months ended March 31, 2015

The Company's loss for the three months ended March 31, 2016 was \$191,171 (\$0.01 per share), compared to \$159,965 (\$0.01 per share) for the three months ended March 31, 2015.

Investor relations amounted to \$17,541 (2015 - \$838), an increase of \$16,703 from the comparative period due to a consultant being engaged in the current period.

Foreign exchange loss (gain) amounted to \$(862) (2015 - \$17,055), a decrease of \$17,917 from the comparative period due to fluctuations of the US dollar and Chilean peso in the period against the Canadian dollar.

Bank and interest charges amounted to \$44,688 (2015 - \$4,046), an increase of \$40,642 from the comparative period due to interest and accretion in the current period on the debentures and the loan payable.

## LIQUIDITY AND CAPITAL RESOURCES

The Company finances its operations through the sale of its equity securities, bridge loans and other financing activities. The Company has no producing mineral properties. The Company expects to obtain financing in the future primarily through equity financing, loans and convertible debt instruments. There can be no assurance that the Company will succeed in obtaining additional financing, now and in the future. Failure to raise additional financing on a timely basis could cause the Company to suspend its operations and/or sell its interests in its properties.

The continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management believes it will be able to raise funds as required in the long term, but recognizes the risks attached thereto.

As at March 31, 2016, the Company had cash of \$7,372 (December 31, 2015 - \$456) and liabilities of \$1,289,354 (December 31, 2015 - \$1,202,197).

As of March 31, 2016, the Company has a working capital deficit of \$1,254,398 (December 31, 2015 - \$1,190,001). The Company intends to raise additional debt or equity funds to meet its short-term commitments and its ongoing exploration activities (see "Overall Performance" above).

During the three months ended March 31, 2016, the Company used cash of \$76,439 (three months ended March 31, 2015 - \$3,882) on operating activities. Cash used in operations consist of cash used to fund the loss for the period less the impact of non cash items, and the cash used for working capital purposes.

During the three months ended March 31, 2016, the Company received \$186,800 (three months ended March 31, 2015 - \$159,262) from financing activities. The Company received proceeds from shares to be issued of \$121,800 (three months ended March 31, 2015 - \$Nil), had an advance from a related party of \$65,000 (three months ended March 31, 2015 - \$Nil) and had debenture issuances, net of issue costs, of \$Nil (three months ended March 31, 2015 - \$159,262).

The Company used \$103,445 (three months ended March 31, 2015 - \$177,222) in investing activities. Cash used in investing activities consists of the acquisition of and expenditures on mineral exploration properties.

### **ENVIRONMENTAL LIABILITIES**

The Company is not aware of any environmental liabilities or obligations associated with its mineral properties. The Company is conducting its operations in a manner consistent with governing environmental legislation.

### **DISCLOSURE OF INTERNAL CONTROLS**

Management has established processes to provide them sufficient knowledge to support representations that they have exercised reasonable diligence that (i) the unaudited condensed consolidated interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements; and (ii) the unaudited condensed consolidated interim financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Venture Issuer Basic Certificate filed by the Company does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing such certificate are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's generally accepted accounting principles (IFRS).

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in such certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

The Company has unpaid property tax for various mineral exploration property claims totaling approximately 283,194,000 Chilean Pesos (\$551,000) which has been included in accounts payable and accrued liabilities as at March 31, 2016. In the event that the claims are put up for tax auction, the Company will have a notice period to make the payment for the portion of this amount required.

### **PROPOSED TRANSACTIONS**

The Company has entered into separate agreements to acquire four copper gold projects from Cogonov Inc. ("Cogonov"). The Projects are referred to as Fox River, Lynn, Parrsboro and Bass River.

The Company will acquire Fox River from Cogonov for 6,000,000 common shares and Lynn, Parrsboro and Bass River from Cogonov for 20,500,000 common shares. The common shares will be issued to the shareholders of Cogonov (directly or indirectly). No new control persons or insiders are expected to be created in Chilean Metals by the issuance of the Chilean Metals shares.

Cogonov's four properties in central Nova Scotia are part of their Iron Oxide-Copper-Gold ("IOCG") regional exploration program. The claims cover select IOCG exploration targets previously delineated by Minotaur Exploration (Australia) along the Cobequid-Chedabucto Fault Zone ("CCFZ"). The CCFZ is a 300 km long fault structure that hosts over 100 mineral occurrences, past producing mines and deposits of Iron Oxide, Copper, Cobalt, Gold, Nickel and Barite. These projects have been part of a IOCG exploration program to reinterpret and re-examine the mineral potential of Nova Scotia.

As part of the original non-binding letter agreement, Chilean Metals received a non-refundable \$50,000 fee, which will be accounted for as part of the acquisition at the time it closes.

The proposed acquisition is subject to TSX-V and other regulatory approvals.

### **RISK FACTORS**

The information provided in this document is not intended to be a comprehensive review of all matters concerning the Company. The users of this information, including but not limited to investors and prospective investors, should read it in conjunction with all other disclosure documents provided including but not limited to all documents filed on SEDAR ([www.sedar.com](http://www.sedar.com)).

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position.

Please refer to the section entitled "Risks Factors" in the Company's MD&A for the fiscal year ended December 31, 2015, available on SEDAR ([www.sedar.com](http://www.sedar.com)).
