1. Nature of operations and going concern

Chilean Metals Inc. (formerly International PBX Ventures Ltd; the "Company") is an exploration stage company and is in the business of acquiring and exploring mineral properties in Chile. There has been no determination whether properties held contain ore reserves, which are economically recoverable.

The Company is a publicly listed company incorporated in Canada with limited liability under the legislation of the Province of British Columbia. The Company's shares are listed on the TSX Venture Exchange ("TSX-V"), OTCQX International and Santiago Stock Exchange, Venture Market. The head office and principal address of the Company are located at Suite 205 - 490 Adelaide Street West, Toronto, Ontario, Canada, M5V 1T2. The Company's registered and records office address is at Suite 700 – 595 Burrard Street, PO Box 49290, Vancouver, British Columbia, Canada, V7X 1S8.

The recoverability of carrying amounts for mineral exploration properties and options is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development and achieve profitable production or alternatively, dispose of the properties. It is reasonably possible that economically recoverable reserves may not be discovered and accordingly a material portion of the carrying value of mineral exploration properties could be written-off.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, and political uncertainty.

These unaudited condensed consolidated interim financial statements have been prepared on the going concern basis, which assumes that the Company will be able to continue as a going concern and realize its assets and discharge its liabilities in the normal course of business. These unaudited condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. During the three months ended March 31, 2015, the Company incurred a net loss of $159,965 (three months ended March 31, 2014 - net income of $38,241). As at March 31, 2015, the Company has incurred significant losses since inception totaling $47,684,904 (December 31, 2014 - $47,524,939). At at March 31, 2015, the Company has a working capital deficiency of $532,914 (December 31, 2014 - $357,034); the continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that additional funds will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors cast significant doubt as to the Company's ability to continue as a going concern and accordingly use accounting principles applicable to a going concern.

2. Basis of presentation

These unaudited condensed consolidated interim financial statements for the three months ended March 31, 2015 including comparatives have been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting'. These unaudited condensed consolidated interim financial statements may not include all information and note disclosures required by IFRS for annual financial statements and therefore, should be read in conjunction with the annual audited financial statements for the year ended December 31, 2014, which have been prepared in accordance with IFRS.

These unaudited condensed consolidated interim financial statements for the three months ended March 31, 2015 were approved and authorized for issue by the Company's Board of Directors on June 1, 2015.

2. Basis of presentation (continued)

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis under the historical cost convention, except for the revaluation of certain financial instruments. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

3. Significant accounting policies

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRSs issued and outstanding as of June 1, 2015, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2014, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2015 could result in restatement of these unaudited condensed consolidated interim financial statements.

Change in accounting policies

The Company adopted the following accounting pronouncements during the period.

(i) IAS 24 – Related Party Disclosures ("IAS 24") was amended to clarify that an entity providing key management services to the reporting entity or the parent of the reporting entity is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. At January 1, 2015, the Company adopted these amendments and there was no material impact on the Company's unaudited condensed consolidated interim financial statements.

Recent accounting pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after January 1, 2016 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

(i) IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB in November 2009 with additions in October 2010 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity's own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted. The Company is currently assessing the impact of this pronouncement.

(ii) IAS 1 – Presentation of Financial Statements ("IAS 1") was amended in December 2014 in order to clarify, among other things, that information should not be obscured by aggregating or by providing immaterial information, that materiality consideration apply to all parts of the financial statements and that even when a standard requires a specific disclosure, materiality considerations do apply. The amendments are effective for annual periods beginning on or after January 1, 2016. Earlier adoption permitted.

5. Mineral properties (continued)

(a) Copaquire Property, Chile

On October 11, 2013 the Company, through its wholly owned Chilean subsidiary, Minera IPBX Ltda. (“IPBX”), entered into an agreement to sell 100% of its interest in the Copaquire Property as well as the camp located on the property, to Teck Resources Chile Ltda. (“Teck”), a subsidiary of Teck Resources Limited for cash consideration of $2,706,862 (US$2,545,000) and $519,628 (US$488,556) respectively, plus a 3% net smelter royalty ("NSR") payable to IPBX (the “Sale Agreement”). Under terms of the Sale Agreement, Teck will have the option to buy back 1% of the NSR for US$3 million at any time, and will assume all associated rights, permits and obligations (including future option payments). The sale closed on March 24, 2014.

(b) Sierra Pintada, Chile

The Company previously owned a 100% interest in exploitation and exploration concessions covering 4,920 hectares in Region III, Chile.

During the year ended December 31, 2014, the Company dropped all exploitation and exploration concessions and recorded a write-off of $1,055,743 during the year ended December 31, 2014.

(c) Tierra de Oro, Chile

The Company owns a 100% interest in exploitation and exploration concessions in Region III, Chile.

(d) Hornitos Property, Chile

The Company owns eleven claims south of Copiapo, Chile. Currently, the Company is not conducting active exploration on the property.

(e) Palo Negro Property, Chile

The Company owns mining concessions in Chile. Currently, the Company is not conducting active exploration on the property.

(f) Zulema aka. Chicharra Property, Chile

The Company has acquired 100% of the rights to exploitation concessions.

In October 2014, the Company completed the acquisition of nine mining concessions from Compañia Minera Casale, a company jointly owned by Chilean subsidiaries of Barrick Gold Corp. and Kinross Gold Corporation, respectively, for the sum of US$50,000.

In March 2015, the Company completed the acquisition of three mining concessions from private Chilean owners. Under the terms of the agreement, the Company paid the vendors US$50,000 in cash and issued 600,000 shares (valued at $27,000).

(g) Tabaco, Chile

The Company owns mining concessions in Chile. Currently, the Company is not conducting active exploration on the property.

(h) Other Property, Chile

The Company has acquired 100% of the rights to an exploitation concession in Chile. Currently, the Company is not conducting active exploration on the property.

6. Assets held for sale

During the three months ended March 31, 2014, the Company disposed of the Copaquire Property and Camp which it committed to disposing of during the year ended December 31, 2013. As at December 31, 2013, the Copaquire Property and Camp met the criteria to be classified as assets held for sale and as such were each measured at the lower of their carrying amount and their fair value less costs to sell resulting in an impairment of $17,025,440 during the year ended December 31, 2013.

The Copaquire Property was measured at fair market value less costs to sell at December 31, 2013 as such no additional gain or loss was recognized at March 24, 2014 on final disposition.

The Copaquire Camp was measured at its carrying amount at December 31, 2013. The total proceeds attributed to the Camp from the Sale Agreement was $515,759. Therefore, the Company recognized a gain on the disposition of the Camp of $318,901 including foreign exchange loss.

7. Debentures and loans

(a) The Company had two loans totaling $200,000 from a former director, who resigned in March 2012. Both loans were interest bearing at 1% per month, unsecured, and due on demand. During the year ended December 31, 2014, $140,000 was repaid with a remaining balance of $60,000 principal and $34,000 in accrued interest. On May 31, 2014, the Company entered into a new loan agreement for the remaining aggregate balance of $94,000 to be repaid on May 31, 2015. The loan bears interest at 12% per annum with the interest prepaid. The Company is currently in discussions with the holder regarding the repayment of this loan.

(b) On March 26, 2015, the Company issued $190,000 of debentures bearing interest at a rate of 14% per annum and maturing on the earliest of the sale of the Copaquire 3% NSR (see note 5(a)) and October 31, 2016. As part of the issuance, the Company paid an origination fee of $26,600. The debentures may be repaid prior to July 1, 2015 by paying a bonus of 20% of the principal. In the event the debentures are not repaid as of July 1, 2015, the Company will be required to issue 1,900,000 warrants, exercisable at a price of $0.05 per share until October 31, 2016. On November 1, 2016, if the debentures are not repaid in full plus a bonus of 100% of the principal, the holders shall have the right to acquire $190,000/US$1,000,000 percent of the Copaquire NSR. The debenture is secured by the shares of the Company's subsidiary, IPBX, that contains the Copaquire NSR.

The Company used the residual value method to allocate the principal amount of the convertible debenture between the liability component, equity component and the right to acquire the Copaquire NSR. The Company valued the debt component of the debentures by calculating the present value of the principal and interest payments, discounted at a rate of 30%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The Company valued the equity component using the Black-Scholes option pricing model with the following assumptions: a 1.34 years expected average life; 143% expected volatility; risk-free interest rate of 1.34%; and an expected dividend yield of 0%. Volatility is calculated based on the changes in historical stock prices over the expected life. Based on this calculation, the liability component is $144,832 ($114,094 net of transaction costs), the equity component is $45,168 and the residual right to acquire the Copaquire NSR is $nil. Accretion charges attributable to the debenture for the three months ended March 31, 2015 were $733. This amount is added to the liability component and is included in bank and interest charges.

Subsequent to March 31, 2015, additional debentures of $100,000 were issued under the same terms, except that their was no origination fee of 14% but a brokerage fee of $3,600.

9. Stock options

The Company has implemented a stock option plan ("the Plan") to be administered by the Board of Directors. Pursuant to the Plan the Board of Director's has discretion to grant options for up to a maximum of 10% of the issued and outstanding common shares of the Company at the date the options are granted. The option price under each option shall be not less than the discounted market price on the grant date. The expiry date of an option shall be set by the Board of Directors at the time the option is awarded, and shall not be more than ten years after the grant date. Options granted to directors, employees and consultants, other than consultants engaged in investor relations activities, will vest immediately upon granting, unless otherwise approved by the relevant regulatory authorities. Options granted to employees and consultants engaged in investor relations activities will vest in stages over a minimum period of 12 months with no more than one-quarter of the options vesting in any three-month period.
