### CMX Expands Cobalt Focus With Economy East Option

**Toronto, ON. June 25, 2018** Chilean Metals Inc. (“Chilean Metals,” “CMX” or the “Company”) (TSX.V:CMX, OTCQB: CMETF, SSE:CMX, MILA: CMX) has entered into an option to acquire the Economy East Exploration License which consists of 12 claims. Economy East is located 8km west of our Trident Prospect in the Cobequid Highlands and is considered prospective for IOCG-Cobalt style mineralisation.

In consideration for the Option, the CMX shall pay the Optionor as follows: (a) a cash payment of \$12,000 to be paid within 10 working days of receiving TSX Venture Exchange (the “Exchange”) approval

of this Agreement; (b) an issuance of common shares (the "Shares") of the Optionee, having a value of \$5,000 to the Optionor issuable within 10 working days of receiving Exchange approval of this Agreement; (c) a cash payment of \$5,000 paid to the Optionor on or before the first anniversary of the Exchange approval and all subsequent years thereafter; and (d) incur, within 3 years from the date of Exchange approval of this Agreement, at least \$500,000 in exploration expenditures on the Property, upon which the CMX will have earned its Interest in the Property, subject only to the 10% Free Carried Interest and the 1% NSR Royalty to be held by Optionor. CMX may purchase the 10% Free Carried Interest for \$500,000 payable in cash or shares and it may acquire the 1% NSR Royalty by paying \$250,000 in cash or shares.

"We are very bullish on specific areas in the Cobequid Highlands and the potential for a major Cobalt and/or base metals discovery. We have recently completed drilling on our Castlereagh prospect in Bass River (Assays Pending Mid-Late July) and are completing a geophysical program over the recently acquired Trident Prospect where we will test later this summer a known Iron deposit, identified by Chilean Metals President Mick Sharry. Trident was the site of six core holes and a 1000 tonne bulk sample which were completed in the late 80's. The bulk sample had noted interesting Cobalt results by the department of Natural Resources. We have submitted samples from that historic drill core for assay and will report on those when results are received. The Economy East project is interpreted to consist of very similar geology to Trident and as such is considered prospective for IOCG-Cobalt style mineralisation.

We will conduct a detailed Airborne Mag and Radiometrics survey on the project. moving as quickly as possible to obtain land access agreements, cut lines and conduct an IP survey. Following that drill targets will be defined by integrating all available data and a drill program will be proposed.

This a summer of tremendous activity for Chilean as we rapidly have identified and pursued what we feel are very viable Cobalt and base metal targets in the Cobequid Highlands. We are excited to see what Mother Earth has in store for us as we explore this area." commented CMX CEO Terry Lynch

### About Chilean Metals,

[www.chileanmetals.com/](http://www.chileanmetals.com/)

Chilean Metals Inc. is a Canadian Junior Exploration Company focusing on high potential Copper Gold prospects in Chile & Canada.

Chilean Metals Inc is 100% owner of five properties comprising over 50,000 acres strategically located in the prolific IOCG ("Iron oxide-copper-gold") belt of northern Chile. It also owns a 3% NSR royalty interest on any future production from the Copaquire Cu-Mo deposit, recently sold to a subsidiary of Teck Resources Inc. ("Teck"). Under the terms of the sale agreement, Teck has the right to acquire one third of the 3% NSR for \$3 million dollars at any time. The Copaquire property borders Teck's producing Quebrada Blanca copper mine in Chile's First Region.

Chilean Metals Inc is the 100% owner of five Copper Gold Cobalt exploration properties in Nova Scotia on the western flank of the Cobequid-Chedabucto Fault Zone (CCFZ); Fox River, Parrsboro, Lynn, Economy and Bass River North respectively. It has also optioned two additional projects Trident at Bass

River and Economy East. Chilean Metals is exploring, analyzing and drilling these properties in the summer of 2018.

ON BEHALF OF THE BOARD OF DIRECTORS OF  
Chilean Metals Inc.

The Qualified Person for Chilean Metals Inc., as defined by National Instrument 43-101, is Mick Sharry, M.Sc. Consultant

Forward-looking Statements: This news release may contain certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical fact, that address events or developments that CMX expects to occur, are forward looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Forward-looking statements in this document include statements regarding current and future exploration programs, activities and results. Although CMX believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration success, continued availability of capital and financing, inability to obtain required regulatory or governmental approvals and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
